ASE-38

ASE - 38 Wet Bulb/Dry Bulb Hygrometer ALPHATM

This very accurate instrument has two thermometers, one of which has a cloth sock on the bulb which is kept wet from a tube of water (center). The wet bulb temperature will be lower than the dry bulb temperature due to evaporative cooling. Knowing the difference in temperatures, simply consult the chart on the front of the housing to determine relative humidity at the dry bulb temperature. Plastic molded case and glass reservoir. Size 10" x 4"; wall mount. Instructions included. Replacement reservoir tubes also available

Other changes can be done on request or as per user specification.

Manufactured By : SUDARSHAN CHEMICALS India 324007 0744-2362345, 09414188018
