ASE- 2894 EMBALMING MACHINE ALPHATM

The embalming machine pumps formaldehyde mix into the cadaver for preservation and sanitation purposes. For this an embalming machine is utilized such as our embalming machine with its specialized noiseless pump. Unit is fitted with air compressor 1/8 H P single speed motor which is conneted with a 3 gallon acrylic/Stainless Steel basin to hold embalming fluid stainless steel tank is fitted with a safety valve,pressure gauge and rubber tubing.These embalming machine provides suction and delivery at optimum pressure with a fluid delivery rate of 10 ltrs. to 15 ltrs per hrs. it is available with salient features such as:

- S.S inner tank to store fluid capacity 10-15 liters
- Mounted on castors for easy movement & grips provided for lifting
- Mains-on & In-use indication provided.

Manufactured By : SUDARSHAN CHEMICALS India 324007 0744-2362345, 09414188018

**CE, ISO 9001:2015, WHO, FDA & ISO-13485 CERTIFIED
With first prize awarded at Haroti Udyog Mela year 2003**

ASE- 2894 EMBALMING MACHINE

The embalming machine pumps formaldehyde mix into the cadaver for preservation and sanitation purposes. For this an embalming machine is utilized such as our embalming machine with its specialized noiseless pump. These embalming machine provides suction and delivery at optimum pressure with a fluid delivery rate of 10 ltrs. / Hr. it is available with salient features such as S.S inner tank to store fluid capacity 10-15 liters

Complete workstation containing embalming trolley and embalming machine.

Trolley made of complete SS manufactured without rivets or bolts on the surface

Manual ratchet system provided for trendelenburg position.

Embalming machine mounted on the underlying frame for complete system transportation.

Embalming machine can be dismantled and used separately.

Provided with heavy castors for easy movement with or without embalming machine.

Embalming trolley approx 60" lengthX28"widthX34"height Embalming machine uses specialized noiseless pump for suction and delivery at preset optimum pressure.

Fluid delivery rate 10 ltrs./hr.

SS inner tank with fluid capacity provided.

Complete SS Outer body mounted provided

Complete SS outer body mounted on castors

Approx Size of the EM – 05, 24" lengthX19" width X 14.5" height

Embalming machine with its specialized noise less pump, provide suction and delivery at optimum pressure with a fluid delivery rate of 10Litres/hr with salient features such as

SS Inner tank to store fluid capacity 10-15 liters, Mounted on castors for easy movement and grips provided for lifting, IV stand fixed for mounting cannula tubing and mains cable, Mains-on and in use indication provided, Complete stainless steel outer body/ and / or Cadaverous injector

For injecting formaldehyde solution in Cadaverous at much higher speed than normal gravity process. Unit is fully covered and mounted on a portable trolley having four castor wheels for easy movement. Unit consists of one air compressor fitted with 1/2hp motor which is connected with a stainless steel tank of 10 liters capacity meant for storing and injecting the solution. Tank is fitted with a safety valve, pressure gauge and rubber tubing having provision for injection and supplied complete with electric cord, plug and suitable to work on 220V, 1ph 50hz, AC supply.
